ACKNOWLEDGEMENT

"Gratitude is a feeling which is more eloquent than words, more silent than silence."In Undertaking this project work I needed the direction, assistance and cooperation of various Individuals and organizations, which is received in abundance with grace of god, without their unconstrained support, the project could not have been completed.

If words are considered as the symbol of approval and token acknowledgement, then let the following words play heralding role of expressing my gratitude.

I wish to acknowledge my sincere gratitude to **DR**. **K.M**. **Mathew**, **Principal, JPM Arts Science College Kanchiyar P.O Labbakkada**, for all his efforts and administration in educating me in his premier institution.

I extended my gratitude to**, Ms. Sheela.S**, **Head of the department of Computer Science**, who is a constant source of inspiration and whose advice helped me to complete this project successfully.

I also extend my gratitude to my internal guide, **Asst. Prof. Mr. Albin Kurian, Assistant Professor, Department of Computer Science**, who is my guide and a source of inspiration and whose advice helped me to complete this project successfully.

With profound indebtedness, I thank my project guide **Mr. Jilson Saji,** COGNIZ INFO TECH and his team for his cooperation and valuable guidance throughout the project.

With great enthusiasm I express my gratitude to all the faculty members of Department of Computer Science for their timely help and support.

Finally I express my deep appreciation to all my friends and family member for the moral support and encouragement they have given to this project successfully.

ABSTRACT

Data is the most vital factor concerning software and it should be safely recorded in database tables and easily retrieved at the click of a button. Security of the vital data concerning an application, commands, utmost importance ,since the entries that are recorded in the fields are private in nature and concerns the internal working of the respective establishment .Therefore strong security mechanism is the hall mark of good software.

Online Gift Shop provides online ordering of gifts given in the website. The main users of the website are Admin and Common users. Only the registered users can access the website.
